Message from the Founder and Chairperson

The core purpose of education is to provide children with a learning environment which brings out the best in them. I strongly felt the need for a customization in our school system and reorienting it to Indian culture and traditions. The Aryabhatta National Public School (ANPS), **'the Galaxy of Knowledge'** is the result of my new concept with unique experiment which has already started bearing fruits. Now, when I look back in time and observe what changes we have been able to bring in the society through our concept of school system, it fills me with immense pride and honour. This success would not have come true with purely wholehearted and consistent efforts by our students, faculty and parents.

Aryabhatta National Public School was founded in the year 2017 to make it pinnacle for an educational edifice facilitated with child-centric friendly environment to tap into their hidden potential by exposing them to diverse opportunities. Since inception, our overarching goal has been to make ANPS a happy school, where teaching is a pleasure and learning is a joy; where learning and excelling is a passion, and culture and values have a pre-eminent place. Children exposed to learn more by doing things themselves and trying out new ideas, taking failure and success in their stride, with all their energies focused on honest and purposeful effort. Our school has well defined discipline, sound management, caring and committed teachers. A good school programme ensures setting of comprehensive learning objectives and having a structured way to achieve these goals in the child considering that every child is special, different and an individual in his/her own right. The four (04) major components that are instrumental in shaping the learning of the child in school are:-

- The philosophy (The why)
- The curriculum and methodology (The what and how)
- The learning tools offered to the child (The environment / materials)
- The teachers who facilitate learning (The facilitator)

It is our endeavour to transform students in such a way that they are physically fit, mentally resilient, morally strong and spiritually sound which, we believe, are the necessary preconditions for all rounded growth of any child. Hence, a holistic approach is the key to teaching and learning experience. I have every hope and belief that The Aryabhatta National Public School is going to become a premier institution of its kind in this part of the world, amply fulfilling the educational aspirations of the parents who bring their children to its portals. Once again, this all is a combined effort of us and the teachers and we shall continue to serve the society in the same nurturing way.

Lt Col Sushil Kumar Pathak (Retd), Founder & Chairperson
Aryabhatta National Public School

Our Vision

At ANPS, we foster an environment where a child has natural desire to learn and experience creative journey of self-exploration. We are a school with an Indian mind, an Indian heart and an Indian soul; a school that celebrates the culture of excellence and is an embodiment of values. We believe that a curriculum of excellence with child-centric academic and co-curricular is key to the education of children to face the challenges with confidence and strength of character.

Our Mission

The ANPS believe that the pursuit of excellence rests on the positive belief to develop the qualities of integrity, honesty, trust and a culture of academic excellence, therefore; our Mission is to provide a learning environment that encourages children to bring out the best in themselves and enables their all-round development through the joy of learning, enduring values and the celebration of diversity.

Our Motto

Inspire to Dream…….. Learn to Lead with Excellence

Our Philosophy

True to the Vedic Ideal 'Sa Vidya - Ya Vimuktaya' the School's philosophy strives to eradicate the darkness of ignorance through the light of knowledge. A child with a purpose knowing what he wants to do next and is able to do it is the happiest. Out of this joy comes self-confidence and willingness to work. It is a concerted effort by the **talented, experienced and dedicated team of teachers** who facilitate special care and guidance to students for better assimilation with academic as well as language skills (ie; writing, reading speaking etc). In short, this concept eases not only burden of parents to search a suitable tutor/coaching centre but also prevent the child to live in confused state of learning.

What makes ANPS truly distinctive?

Pre-primary Class (3 – 6 yrs of age)

- Early childhood education under Kreedology concept based on strong Montessori philosophy and method.
- Goes way beyond song & dance routines, nursery rhymes and simple playing with toys.
- Materials and tools for learning designed for the structured curriculum.
- Revolutionary assessment technique.
- Strength of class – not more than 20.

Primary Class & above (Above 6 yrs of age)

- Child-centric approach rather than teacher-centric.
- Special care to old age children academically weak for easy transition to appropriate class according to their age.
- A methodology that instills a sense of purpose & interest to work hard in the child.
- A structured curriculum with comprehensive set of objectives for the overall development of the child.
- Tight integration between curriculum objectives, materials, activities, teacher training & assessment ensuring there is no disconnect.
- Individualized attention to each child to cater to their diverse learning needs.
- Talented, experienced and dedicated teachers with linguistic and cultural diversity.
- Upholds Indian culture and values, whilst fostering as well-rounded citizen.
- A safe and secure learning environment, with focus on student well-being.
- Strength of class – not more than 40.

The ANPS Curriculum Model

The ANPS follows structured curriculum committed to optimize teaching & learning and facilitate holistic development and well-being of children. Through a curriculum that is stimulating and creative, and an environment that is safe and child-centric, we enable the learner to explore multiple dimensions of excellence, encompassing intellectual, social, emotional and physical development. There is equal emphasis on scholastic and non-scholastic learning through a wide spectrum of opportunities.

At ANPS we constantly ensure a holistic approach to teaching and learning for the physical, emotional, intellectual creative, spiritual and social well-being of children. We lay emphasis on experience and explore methods of learning, well beyond the classroom. Our educational programmes help students:

- To develop confidence to work with information and ideas – their own and those of others.
- To take responsibility for themselves and their actions and be respectful of others.
- To be creative, innovative and fully equipped for future opportunities and challenges
- To be articulate, effective communicators, and to express themselves appropriately
- To empathize with others and understand and appreciate diversity.
- To develop as responsible individuals who enjoy a healthy, active and balanced lifestyle.
- To be engaged citizens, contribute to the community and address global challenges.

Kindergarten Programme (Concept of Kreedology)

The concept of Kreedology inculcates in children the qualities of curiosity, exploration and discovery with safe materials in a fun-filled, healthy and happy learning environment. A well-balanced structured curriculum and theme-based instruction help the young minds integrate their learning smoothly. The principles of learning applied in Kreedology include Holistic Development and Learning (EPL, Sensorial, Math, Language); Integrated Learning; Active Learning; Supportive Learning; Interactive Learning and Learning through Play.

The Kreedology Programme makes use of a range of individual and group activities which create a lively and positive learning environment. Games, songs, creative projects, story-telling, role-playing, drawing and painting help develop children's foundational skills in literacy and numeracy. Singing, rhyming and reciting are employed in the Language Arts, and the Phonics Programme. The use of pictures and symbols helps them identify relationships between sets and groups of things to be sorted, counted, shared and represented. The curriculum prepares children for a smooth transition to a more formal Primary curriculum.

Primary School Programme

The Primary School Programme encourages inquiry and exploration, and develops children's competence in various skills - reading, writing, listening, speaking, problem-solving, observation, measurement and use of information and communications technology. Our School curriculum based on Central Board of School Education Programme, which offers an exciting and creative learning environment, with an inter-disciplinary appreciation of Languages, Mathematics, Science and Social Studies, as individual and integrated subjects. Hindi is taught as a Second Language, while a choice between Sanskrit and Urdu is offered as the Third Language, which helps build a strong foundation in Indian languages. The Art, Computer studies, and Yoga are integrated into the mainstream curriculum and are further strengthened as optional co-curricular activities. The wide range of curricular and co-curricular opportunities offered to instill confidence and discipline in children.

The focus on developing communication skills helps them appreciate the value of education, as it reflects in their ability to express themselves, in addition to developing pragmatic skills. Students are encouraged to participate in inter-house cultural and sports events. Book, newspaper and magazine reading activities increase children's awareness of the world. Assemblies, concerts and drama productions help shape their confidence.

Secondary School Programme

The Secondary School Programme is structured to meet children's varied intellectual and developmental needs. The curriculum of Central Board of School Education Programme ensures progression and continuity across various stages of learning in the School, and incorporates continuous evaluation and review of children's performance. The main aims of the Programme are developing skills related to writing, reading, reflecting, critical thinking, public speaking, fostering initiative among students and a desire to acquire knowledge. Academic subjects include English, Hindi, Sanskrit/Urdu, Mathematics, Science and Social Science. The Art, Computer studies, and Yoga are integrated into the mainstream curriculum and are further strengthened as optional co-curricular activities.

ADMISSIONS

Admission is open to classes Pre-Nursery to Class VIII. The admission process is designed to test the proficiency in various subjects, which will reveal the child's problem-solving skills. We believe that this method of testing the student will allow us to look at him/her holistically.

Documents to be submitted at the time of admission:

1. School leaving/transfer certificate and previous year's Report Card (without this no student from Class II onwards will be admitted).
2. Medical Certificate in the given format.
3. Birth Certificate, in original, to be brought for verification only.
4. Recent passport size colour photograph of the candidate and both parents.
5. Admission will be cancelled if any variance is found between the particulars filled in the Registration Form and the documents submitted for admission.
6. Copy of Aadhar Card of the candidate

TRANSPORT FACILITY

We cover main trunk and feeder routes. Specific bus routes will depend on demand and will be determined at the beginning of each academic year. The school reserves the right to fix and/or change the bus routes as may deem fit from time to time. Parents will be duly informed about the bus routes before the classes commence.
